TROPICAL CYCLONE BULLETIN NO. 8F

Tropical Storm "DOMENG" (AERE)

Issued at 11:00 AM, 02 July 2022

HAZARDS AFFECTING LAND AREAS

Tropical Storm "DOMENG" is not directly affecting the archipelago within the forecast period.

HAZARDS AFFECTING COASTAL WATERS

- Under the influence of Tropical Storm "DOMENG", Typhoon "CHABA", and the prevailing Southwest Monsoon, a **Gale Warning remains in effect** over the western seabards of Northern and Central Luzon. For more information, refer to Gale Warning #4 issued at 5:00 AM today.
- Moderate to rough seas (1.2 to 4.0 m)** will also prevail over the remaining seabards of Northern Luzon and western seaboard of Southern Luzon. **These conditions may be risky for those using small seacrafts.** Mariners are advised to take precautionary measures when venturing out to sea and, if possible, avoid navigating in these conditions.

TRACK AND INTENSITY OUTLOOK

- Outside the PAR region, "DOMENG" is forecast to move northwestward and will pass very close or over the Ryukyu Islands tonight before turning north northwestward on Sunday as it moves over the East China Sea.
- "DOMENG" is forecast to remain tropical storm in the next 36 hours.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless re-entry occurs, this is the final bulletin for this tropical cyclone. Succeeding updates will be incorporated in the 24-Hour Public Weather Forecast at 4:00 PM today.
